Average price in 2017

The distribution of the stock prices for the past year (2017)

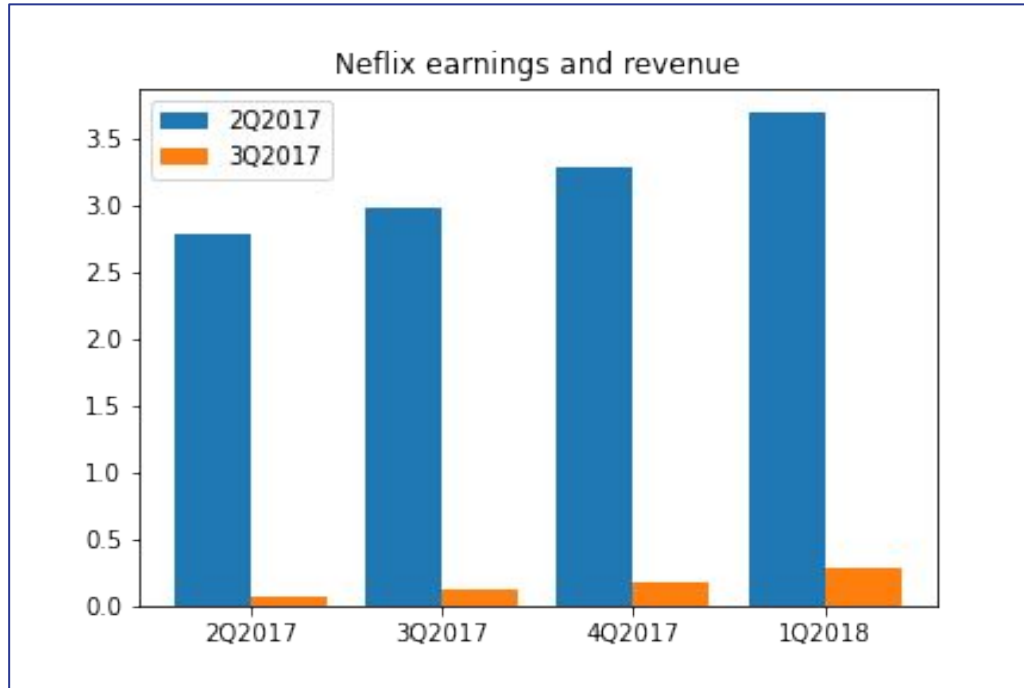

We can find that the share price has gradually increased and reached the highest level in the last quarter. Moreover, the 3rd quarter shows the biggest price change.

Netflix's earnings and revenue in the last four quarters

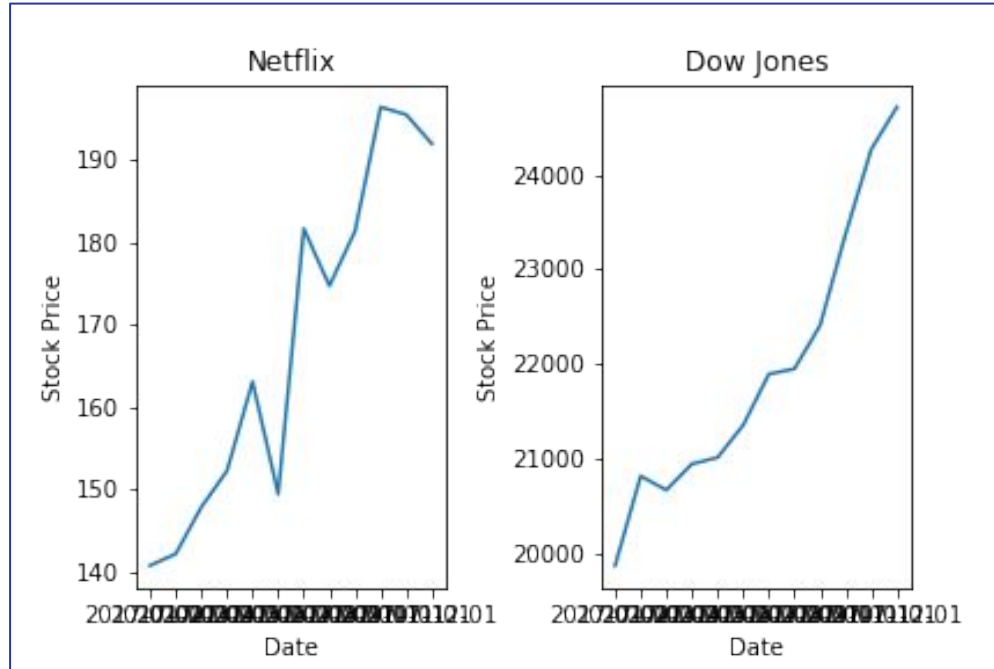

When plotting earnings per share figures by plotting Yahoo's projected valuation for the quarter against actual earnings for the quarter. We see that in the first quarter the actual earnings exceed the estimated earnings, and the estimated earnings exceed the actual earnings in the 3rd quarter. Otherwise it's the same.

The actual vs. estimated earnings per share for the four quarters in 2017

Visualizing Netflix's reported earnings and revenue by placing the two bars side-by-side. And this indicates that both revenue and profit show steady growth this year.

A comparison of the Netflix Stock price vs the Dow Jones Industrial Average price in 2017

Comparing Netflix stock to the Dow Jones Industrial Average in 2017, we can find that the Dow Jones stock price is relatively stable compared to Netflix. And Netflix's share price tripled in 2017 and ended the year on a downward trend.
